SUMMARY

Computer Science student with hands on experience building full stack web applications, REST APIs, and AI powered projects using Python, React.js, FastAPI, and PostgreSQL. Comfortable working with Git, debugging applications, and learning new technologies through real-world projects.

EDUCATION

Vellore Institute of Technology (VIT), Bhopal
B.Tech in Computer Science Engineering

2023 – 2027
CGPA: 8.54 / 10.0

PROJECTS

TourWeave | *React.js, JavaScript, Supabase, AI Integration*

🌐 Code

- Built a full stack travel planning application using React.js with responsive pages and interactive maps powered by Leaflet.js.
- Developed REST APIs and PostgreSQL tables using Supabase for authentication, itinerary management, and real-time data storage.
- Integrated an AI travel assistant that generates personalized trip recommendations based on user preferences.
- Used Git for version control, fixed bugs during development, and improved application performance before deployment.

Phishing URL Detection Engine | *Python, Scikit-learn, FastAPI, NLP*

🌐 Code

- Built an end to end machine learning pipeline to classify phishing URLs by extracting 15+ features including domain length, HTTPS usage, and suspicious keywords.
- Compared Logistic Regression and Random Forest models, achieving 96.2% accuracy and a 0.97 F1-score.
- Built a FastAPI endpoint that predicts whether a URL is safe or malicious and returns a confidence score.

Automated Data Ingestion & Analytics Pipeline | *Python, FastAPI, PostgreSQL, Streamlit*

🌐 Code

- Built a FastAPI application that processes server log data and stores it in PostgreSQL after cleaning and validation.
- Wrote SQL queries to analyze API response times, user activity, and error trends.
- Created a Streamlit dashboard to visualize system metrics and application logs in real time.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL

Frontend: React.js, HTML, CSS

Backend: FastAPI, REST APIs, PostgreSQL, Supabase

AI / ML: Scikit-learn, TensorFlow, OpenAI API, Gemini API

Tools: Git, GitHub, Docker, Linux, Postman

CERTIFICATIONS

- Oracle Certified Professional — Java SE 11 Developer (1Z0-811)
- NPTEL — Introduction to Machine Learning, IIT Madras
- Cisco Networking Academy — Networking Basics

ACHIEVEMENTS

- Top 10 Finalist — Institution's Innovation Council (IIC) Hackathon among 250+ participating teams.
